

Updated InvestTechFX Forex Website Draws More Traders

InvestTechFX Forex website has recently been updated to a new version providing more extensive information and easy to use platform. InvestTechFX promises to deliver to its users a top performing trading system and high quality service that guarantees large income.

Los Angeles, California ([PRWEB](#)) June 24, 2008 -- Foreign exchange continues to be one of the most popular instruments for investment. It has grown nearly twice from 2004 to 2007 and the market is expected to grow even beyond 2010. Being the biggest financial market with great liquidity, it never fails to draw novice and experienced traders in the physical world.

The dynamic and fast-paced Forex market has, in fact, been upgraded and gone online attracting more traders and providing them with utmost convenience when trading wherever they may be located. This new innovation allows clients to keep track of their trades and place orders right away via the desktop trading software from any computer or even mobile phones.

InvestTechFX Technologies, with over 20 years experience, is one of the Forex websites that benefited from this internet technology. The site has recently been updated to a new version providing more extensive information and easy to use platform. InvestTechFX promises to deliver to its users a top performing trading system and high quality service that guarantees large income.

InvestTechFX boasts of complete trading solutions featuring its Meta trader 4 platforms which are downloadable on the site [InvestTechFX.com](#). Users have the opportunity to download a demo account or open a real trading account and start Forex trading right away. Being a world leading platform, InvestTechFX offers 1 pip Forex majors, a margin of up to 1:500, online trading in multiple markets 24 hours a day, five days a week and the opportunity to open an [Islamic Swap Free](#) account for traders who are staunch supporters of Islam.

New traders can also greatly benefit from the site's education center from which they can get more detailed information as well as tools on the Forex market and other related issues such as general and basic technical analysis, trading platform, currency trading, Islamic swap free account and varied financial instruments. Tips are provided to guide traders on how to gain profits in both good and bad markets using certain strategies. From this section, traders can also get answers for their frequently asked questions and learn more about the most common terms used in the trade.

The advanced trading platform of InvestTechFX does not discriminate its users. It accommodates every trader regardless of experience, race and creed. Followers of Islam will be happy to know that they can pursue their dream of participating in Forex trading without violating their Islamic law through this site's Islamic banking feature. By utilizing the swap free account, Islamic traders can earn money in accordance with their religious beliefs.

InvestTechFX allows Forex trading through its investment partner Globex Inter Bank based in the U.S., Canada and Europe. Established in the early 1990s, this top ranking bank trades more than US\$100 million daily covering all major international currencies, CFDs, stocks and commodities. With its reputation of building secured ties with financial institutions and businesses from around the world, Globex Inter Bank prides itself in having gained thousands of private and corporate clients with unmatched service and trading knowledge. The site's testimonials can attest to the satisfied customers who have used InvestTech's platform and have succeeded

in Forex trading.

InvestTechFX is your most dependable and advanced Forex trading partner so there's no reason to look anywhere else.
