Unanet's Donna Kilbourn Receives Women In Technology's President's Award

The Leadership Awards recognize women in the D.C. Metropolitan area who are role models in the technology space. Donna Kilbourn has been active in Women in Technology for many years and has been the Programs Chair since September 2012.

Dulles, VA (PRWEB) April 28, 2014 -- Unanet, a developer of services automation software that helps organizations manage people and projects for improved profitability, has announced that its Senior Vice President of Customer Account Management and Partner Channels, Donna Kilbourn, is the recipient of the Women in Technology’s President’s Award.

Donna was presented with the award at the 15th Annual Leadership Awards Banquet, held at the Regency Reston on April 3rd in Reston, VA. The Banquet agenda included an hour of networking followed by a 2-hour dinner and awards ceremony. Teri Takai, Chief Information Officer of the Department of Defense, was the Guest Speaker.

The Leadership Awards recognize women in the D.C. Metropolitan area who are role models in the technology space. Donna Kilbourn has been active in Women in Technology for many years and has been the Programs Chair since September 2012.

About Women in Technology:
Women in Technology (WIT) is a not-for-profit organization with the mission of advancing women in technology—from the classroom to the boardroom—by providing advocacy, leadership development, networking, mentoring and technology education. With nearly 1000 members in the Washington, D.C.-area, WIT strives to meet its vision of being the premier organization empowering women to be architects of change in the technology industry.

About Unanet:
Unanet is a leading provider of Cloud or On-Premise software for project-based organizations. Unanet delivers skills management, resource planning, budgeting & forecasting, timesheets, expense reporting, billing & revenue recognition, and project management reporting. Over 1,000 organizations rely on Unanet to maximize staff utilization, reduce administrative costs by 90%, improve invoicing by 10X, and support forward decision-making for improved operations.
