Dr. Franklyn Elliott Honored to be Chosen as a Top Doctor in Atlanta

One of Atlanta’s most prominent breast reconstruction surgeons is honored to be named as one of the top physicians throughout the metro Atlanta area in a selective peer-reviewed process.

Atlanta, Georgia (PRWEB) June 27, 2016 -- In an effort to help Atlanta residents determine the most experienced and skillful physicians for their needs, Atlanta Magazine publishes a list of top-rated doctors in a number of specialties. This year, Atlanta Plastic Surgery’s L. Franklyn Elliott, MD has been selected as one of only a select few plastic surgeons to be awarded a position among Atlanta’s Top Doctors.

This list was compiled by Castle Connolly, a leading New York healthcare organization that has dedicated its research to helping consumers find the best possible care for the past 25 years. Dr. Elliott and the other selected doctors were nominated by their peers and have been researched extensively for their skills, board certifications, contributions to the field, patient care, and other qualities which all affect their patients’ experiences. Through this thorough process, Castle Connolly identifies the most qualified doctors and surgeons within their specialties and communities.

Dr. Elliott’s most notable achievements which help to set him apart as a top doctor are his contributions to breast cancer survivors through breast reconstruction surgery. Not only is Dr. Elliott a highly skilled surgeon who has performed nearly 2000 breast reconstruction surgeries throughout more than 30 years as a board-certified plastic surgeon, but he also contributed to the development of the TRAM Flap, a highly effective and widely-used method for breast reconstruction created by Dr. Carl Hartrampf.

In addition to serving breast cancer survivors, Dr. Elliott has spent decades helping patients restore their confidence in their appearance through cosmetic surgeries like breast augmentation, liposuction, short scar facelifts, and more. “It is a true joy to help my patients live every day with more confidence, whether their surgery was cosmetic or reconstructive, and I am honored to have been chosen for this award among the many talented plastic surgeons in Atlanta.” By combining his extensive experience with the latest technology and advanced techniques, Dr. Elliott is dedicated to providing every patient with safest and best possible results.

To learn more about plastic and reconstructive surgeon Dr. Franklyn Elliott, visit his website to review the procedures he performs as well as his patients’ before and after photos. For the latest news and plastic surgery tips from Dr. Elliott’s office, follow him on Facebook, Twitter, and Google+.

ABOUT L. FRANKLYN ELLIOTT, MD
Board certified by both the American Board of Surgery and the American Board of Plastic Surgery since 1984, Dr. Franklyn Elliott has worked at Atlanta Plastic Surgery for over 25 years and is well-known for his contributions to the fields of cosmetic and reconstructive surgery. In addition to performing thousands of highly successful procedures such as liposuction, breast augmentation, face lifts, breast reconstruction, and more, Dr. Elliott is a teacher at heart and has written numerous plastic and reconstructive surgery articles to teach his techniques to others, in addition to speaking at conferences and meetings both in the US and throughout the globe, as well as playing a core role lecturing and directing at the annual Atlanta Breast Surgery Symposium since 1988. He also served as the president of the Southeastern Society of Plastic and Reconstructive Surgeons in 2001, and he is a current member of the American Society of Aesthetic Plastic Surgeons and the International Society of Aesthetic Plastic Surgeons as well as numerous other medical organizations.
