Class Rings Retailer Scores Highest Rating from TopConsumerReviews.com

Dunham Manufacturing, a leading retailer of Class Rings, receives the highest ranking available from TopConsumerReviews.com.

Overland Park, KS (PRWEB) September 15, 2017 -- TopConsumerReviews.com recently gave a top rating to Dunham Manufacturing, a leader among Class Rings available for purchase online.

Buying a class ring is a timeless, traditional way to express pride in one’s high school or college experience. In the past, students were often limited to one company; if they didn’t like the styles, prices, or even the schedule of the representative’s visit to campus, they were out of luck. Fortunately, the marketplace for class rings today is as wide as the internet. Students can find class rings in a wide variety of designs, materials, and price points from the comfort of their own homes. Shopping online for a class ring may also save shoppers a considerable amount of money compared to a traditional in-person campus visit with a representative without sacrificing quality or style.

“When it comes to shopping for Class Rings, Dunham Manufacturing receives high marks for reputation, customization options, and extremely fast delivery,” stated Brian Dolezal of TopConsumerReviews.com, LLC. “Although their website isn’t as sleek as some of their competitors, Dunham has a 20-year history of delivering quality rings for graduates, professional interests such as military and law enforcement, and even family crests. Their pricing is very competitive, and their 100% satisfaction guarantee makes it practically risk-free to order your class ring from Dunham. Customers love their attention to detail, quick turnaround times from order to delivery, and overall ordering experience. It is our pleasure to give Dunham Manufacturing our top spot among retailers of Class Rings in 2017.”
