InventHelp Inventor Develops Enhanced Table Cover (TST-306)

*Pittsburgh-based InventHelp, a leading inventor service company, is submitting this client’s idea, Secured Table Cover, in the hopes of a good faith review.*

PITTSBURGH, PA (PRWEB) October 09, 2017 -- Unless you tape down table covers during picnics or other outdoor events, they are prone to being blown away by the wind. In order to solve this common problem, two inventors from Tucson, Ariz., came up with the idea for the SECURED TABLE COVER.

This modified table cover resists being blown up or away in wind in order to prevent spills and messes. It also maintains the visibility of the design by eliminating the need to use unsightly tape. Ergonomic and easy to use, the SECURED TABLE COVER promotes convenience and enjoyment. The inventors have created a prototype of their idea.

The original design was submitted to the Tucson office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 16-TST-306, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
