Cosmetic Dentist, Dr. Dan Myers, Restores Smiles in Sandy Springs, GA, with Custom Dental Crowns and Bridges

Dr. Dan Myers now welcomes new patients for a custom bridge and dental crown in Sandy Springs, GA, with or without a referral. Dr. Myers is a skilled cosmetic dentist with decades of experience placing dental implants, creating custom tooth restorations and offering other cosmetic procedures.

SANDY SPRINGS, Ga. (PRWEB) November 27, 2018 -- New patients in need of a dental crown in Sandy Springs, GA, can now visit Dr. Dan Myers’ practice for treatment, with or without a referral. Dr. Myers has many years of experience improving patient smiles with a variety of cosmetic procedures and tools, including porcelain veneers, dental implants, bridges and custom crowns.

As a dedicated cosmetic dentist, Dr. Myers has extensive experience improving the function and appearance of patients’ smiles with the help of natural-looking restorations. He uses completely customized crowns and bridges to rebuild balanced, attractive smiles after they have been damaged by decay and injury. Dental bridges and crowns are ideal for situations requiring minor dental repairs. Examples include cracked, discolored, gapped, chipped or worn teeth. Crowns and bridges can both be used to cover up minor dental imperfections and restore damaged teeth so they function like normal. Dr. Myers uses an in-office dental lab to quickly and efficiently create beautiful restorations that are designed to match each patient’s teeth in both color and shape as well as complement his or her facial shape. They are also carefully designed and placed for the most comfortable fit.

In addition to restoring the smile with bridges and crowns, Dr. Myers also offers dental implants as a long-lasting alternative to bridges and dentures for tooth replacement. He places each dental implant with the help of guided implant surgery technology, including cone beam CT scans and advanced dental software. Integrating leading technology into the dental implant placement process and staying up-to-date on the latest trainings is how Dr. Myers ensures the most accurate placement and achieves a positive treatment outcome.

Dr. Myers has two practice locations: one in Sandy Springs and one in Alpharetta, GA. He warmly encourages patients in need of dental implants or a dental crown in Sandy Springs, GA, to visit him for a consultation. Patients can easily reserve an appointment by calling THE DENTIST Centers.

About the Cosmetic Dentist

Dr. Dan Myers is a cosmetic dentist serving his Alpharetta, GA and Sandy Springs, GA communities with modern and comfortable care. After dental school, Dr. Myers had the honor of training with some of the most prominent cosmetic dentists in the industry where he gained exclusive knowledge and superior artistry skills in esthetic dental reconstruction. He continuously participates in numerous continuing education courses in dental esthetics, including the prestigious Las Vegas Institute for Advanced Dental Studies (LVI). Among other services, Dr. Myers offers dental implants, dental crowns and bridges, porcelain veneers and orthodontics. He also provides custom facial esthetics treatments including Botox® and dermal fillers. Dr. Myers’ passion for the art of dentistry guides him in transforming countless smiles and providing comprehensive dental care for the entire family in a stress-free dental environment.
