Hiller Plumbing, Heating, Cooling & Electrical Announces the Release of A Seasonal Guide to HVAC Maintenance

Hiller Plumbing, Heating, Cooling and Electrical has published an informative infographic entitled “A Seasonal Guide to HVAC Maintenance” to educate consumers on how to care for an HVAC system year-round.

NASHVILLE, Tenn. (PRWEB) November 27, 2018 -- Hiller Plumbing, Heating, Cooling & Electrical has published an informative infographic entitled “A Seasonal Guide to HVAC Maintenance” to educate consumers on how to care for an HVAC system year-round.

With this infographic, Hiller Plumbing, Heating, Cooling & Electrical provides information on the process of maintaining an HVAC system. To accurately inform consumers on a schedule for HVAC care and cleaning, the infographic covers a cleaning checklist for spring, summer, fall, and winter.

Certain tasks like replacing air filters and examining refrigerant lines should be done every season, but other tasks are specific to the time of year. In the spring, check your air conditioning unit for any repairs and clean the air conditioning’s drainage hole, the dehumidifier, and bathroom fans. During the summer, keep the grass around outside units properly trimmed, turn off the furnace dehumidifier, and not place the thermostat too low. For the fall season, check the heating unit for any repairs, inspect the attic’s insulation, and have the humidifier back in working condition. At wintertime, be certain to check the carbon monoxide detector’s battery.

“Having your HVAC system on a maintenance schedule is a must,” said Hiller Plumbing, Heating, Cooling, & Electrical HVAC Service Manager Chris Klaver. “If you take a few minutes every 3 months to check your HVAC system, you can ensure its upkeep which will save you money in the long run. If you don’t have time to check it yourself, have a professional check to make sure it’s functioning properly.”

About Hiller Plumbing, Heating, Cooling & Electrical

Hiller Plumbing, Heating, Cooling & Electrical provides residential and commercial service and repair throughout Tennessee, Southern Kentucky, and Northern Alabama. As the homeowner’s premier provider of choice with a 100% satisfaction guarantee, Hiller is Tennessee’s largest residential and commercial plumbing, heating, air conditioning, and electrical services provider.
