Pixel Film Studios Unveils ProSidebar 3D Awards 2 for Final Cut Pro X

Developers at Pixel Film Studios, creators of visual effect tools for the post-production and broadcast markets, announced the availability of ProSidebar 3D Awards 2 enabling film editors to add breathtaking three-dimensional sidebars to Final Cut Pro X projects.

ALISO VIEJO, Calif. (PRWEB) January 03, 2019 -- ProSidebar 3D Awards Volume 2 is a collection of stylized text display graphics that can be used to introduce a subject or display general information. This product features customizable sidebar dimensions, colors, animations, and text inside of Final Cut Pro X. Pixel Film Studios makes editing easy with ProSidebar 3D Awards Volume 2.

ProSidebar 3D Awards Volume 2 features 9 professional sidebars created for Final Cut Pro X. Each sidebar is uniquely designed so that users have a wide variety of styles to choose from. ProSidebar 3D Awards Volume 2 is completely customizable and can be applied to any production in Final Cut Pro X.

ProSidebar 3D can be used in a variety of ways. Use ProSidebar 3D to present any subject. Introduce people, locations, features, and events. The possibilities are endless. ProSidebar 3D can also be used to display lists, rankings, schedules, recipes and general information in Final Cut Pro X.

Edit the dimensions of the sidebar using a few simple sliders. ProSidebar 3D contains Width, Height, and Depth slider controls so that users can easily resize sidebars for any purpose. Create sidebars of various sizes and shapes in Final Cut Pro X.

ProSidebar 3D users can animate the sidebar into the scene with full customization options. Just set the location of the Start/End position and rotation. Then, set the Mid position and rotation. This is where the sidebar will end up when finished animating.

Established in 2006, Aliso Viejo, California-based Pixel Film Studios is an innovative developer of visual effects tools for the post-production and broadcast community. Their products are integrated with popular non-linear editing and compositing products from Apple FCPX.
