Leading Oakland Employment Law Attorneys, CA Civil Rights Group Announces Review Successes on Google and Yelp

California Civil Rights Law Group is a leading Bay Area employment law firm with offices in Oakland, San Francisco, and Marin County. The firm is announcing successes on third-party review sites such as Google and Yelp.

SAN FRANCISCO (PRWEB) January 31, 2019 -- California Civil Rights Law Group, a law firm specializing in employment law including discrimination, wrongful termination, and sexual harassment at http://www.civilrightsca.com/, is proud to announce new, positive reviews on third-party review sites such as Google and Yelp. The firm now tops nine reviews on Yelp and two reviews on Google for its Oakland law firm office. In today's connected economy, many potential clients often go first to third-party review sites when seeking out an employment law attorney.

"The Internet has changed the way that clients find law firms who specialize in employment law," explained Navruz Avloni, managing attorney at the Bay Area-based law firm. "We're very proud of our successes on Internet review sites such as Google and Yelp for our Oakland office, specifically that we have topped two reviews on Google and nine reviews on Yelp, which is so popular in the East Bay."

To see the latest reviews of the law firm, visit the Oakland informational page at https://www.civilrightsca.com/oakland/ as well as the Yelp page at https://www.yelp.com/biz/california-civil-rights-law-group-oakland and the Google page at https://goo.gl/xJxYAN. It should be noted that while third-party reviews are important, each case is different. Any person who thinks that they may be facing employment discrimination or harassment should reach out for an attorney consultation. The firm has offices not only in Oakland but also in San Francisco and in San Anselmo (Marin County) and can offer phone appointments as well for an initial, no obligation consultation. In that way, a person can confidentially consult with an attorney who can review the facts of the potential case and give advice vis-a-vis current local, California, and federal law.

FINDING AN EMPLOYMENT LAW ATTORNEY IN THE NEW INTERNET ECOSYSTEM

Here is background on this release. The reality, today, is that more and more people are turning to Internet reviews even for professional services such as attorneys. While word of mouth and professional referrals remain important in the legal service industry, many potential clients turn first to sites such as Google and Yelp as well as specialized legal sites such as Avvo to discover well-reviewed law firms. Since the California Civil Rights Group not only has offices in Oakland, San Francisco, and San Anselmo but also has a broad practice, it is not surprising that it is present on Internet review sites such as Yelp and Google. The firm focuses on employment law, but specifically areas such as sexual harassment, pregnancy discrimination, civil rights (racial discrimination) and even whistleblower issues. In the tech-savvy San Francisco Bay Area, clients then often go online and write reviews about the firm. For example, a recent Yelp review stated, "We are very grateful for the exceptional service. Our interactions with them were not only professional but more importantly their analysis and summary of my wife's situation and the establishment of a concrete plan of action showed their caring, compassion, expertise and competence," while a recent Google review stated, "It was not an easy decision to make, to fight back against institutionalized sexism. It seemed easier to move on with my life. But I called Larry's office to explore my situation, and it was one of the most empowering decisions I have ever made." (Note: the reviews can be read in their entirety at the URL's listed above.)
More importantly, however, the firm advises that anyone looking for reviews of employment law attorneys whether in Oakland, San Francisco, or San Anselmo, realize that only one review matters: theirs. Each situation and individual are unique, so therefore, the best first step (after reading the reviews online) is to reach out for an attorney consultation. A consultation will begin with the facts of the potential case and a comparison against local, state, and federal laws. Regardless with the achievement of so many positive online reviews, the California Civil Rights Group advises all potential clients to "do their homework" and interview a few attorneys before making a selection.
