Apex Learning Digital Curriculum Honored for Excellence in 2018

National education organizations recognize the company’s innovative digital solutions

SEATTLE (PRWEB) January 22, 2019 -- Apex Learning, a recognized pioneer in online learning for secondary education, was recognized by leading education organizations for innovation in 2018. The company announced a complete new digital curriculum in math, science, English and social studies for middle school students, new Career and Technical Education (CTE) courses that expand the programs of study available and most recently, new project-based technology courses that range from coding and design to gaming and animation.

“For more than twenty years, Apex Learning has partnered with school districts nationwide to implement digital learning programs to keep secondary students on track for graduation,” said Cheryl Vedoe, CEO, Apex Learning. “It’s an honor to see our innovation recognized by these prestigious organizations as we continue to develop new solutions to expand education opportunities for students and increase academic performance across the nation.”

Apex Learning was recognized in 2018 by seasoned educators, basing their input on criteria such as innovation, academic excellence and effectiveness. According to the ComputED Gazette judges, “there are some good self-paced learning solutions out there, but Apex Learning Tutorials, with its highly intuitive interface, nonjudgmental and straightforward approach is, quite simply, one of the very best.”
