Pixel Film Studios Presents Pro3rd Bold for Final Cut Pro X.

Developers at Pixel Film Studios, creators of visual effect tools for the post-production and broadcast markets, announced the availability of Pro3rd Bold enabling film editors to add incredible lower-thirds to Final Cut Pro X projects.

ALISO VIEJO, Calif. (PRWEB) January 23, 2019 -- Pro3rd Bold is a collection of 30 professionally designed Lower Third Titles. Pro3rds have numerous animation options that can be combined to create truly unique animations. Customize every element of the preset such as font, color, size, scale, position and more all directly inside of Final Cut Pro. Introduce a new level of professionalism with Pro3rd Bold.

Pro3rd Bold includes 30 lower third titles created exclusively for Final Cut Pro X. Each Pro3rd Bold preset is adaptable to any project and features customizable animations, colors, and more.

Pro3rd Bold is best used to introduce a person. Just replace the text with the name of the person in the footage and set a desired animation. Create a professional lower third with ease.

Alternatively, use Pro3rd Bold to introduce a location or setting. Presets can be used to display additional information about a location or setting in the footage.

Pro3rd Bold includes on-screen controls so that users can reposition, resize and rotate titles with absolute ease. Simply adjust the puck as desired. Customize any and all elements of the preset to perfection with Pro3rd Bold.

Established in 2006, Aliso Viejo, California-based Pixel Film Studios is an innovative developer of visual effects tools for the post-production and broadcast community. Their products are integrated with popular non-linear editing and compositing products from Apple FCPX. Apple, the Apple logo, Mac OS X, and Macintosh are registered trademarks of Apple Inc. in the U.S. and/or other countries. All other trademarks and trade names are the property of their respective owners.
