AIA, INSA, ISWG, NDIA, NVTC and PSC Release Statement Supporting Senator Warner on the Impact of Shutdown

As organizations representing companies that employ professionals in roles requiring security clearances, we are deeply concerned about the impact the federal shutdown may have on the ability of these professionals to maintain their clearance status.

HERNDON, Va. (PRWEB) January 24, 2019 -- The six associations noted below share Senator Warner's concerns that this partial federal shutdown is counterproductive and harmful to the essential functioning of our government. We join Senator Warner in urging the Administration to issue guidelines ensuring that agencies do not penalize employees if their finances are negatively impacted by the loss of paychecks during this government shutdown. We further urge the administration to specifically include federal contractor employees in any guidance issued.
