Modern Acupuncture™ Opens Eighth California Clinic In Mission Valley

*Modern Acupuncture™,* the first franchise to make the natural health and cosmetic benefits of acupuncture available to people in an accessible and affordable delivery, is now available in Mission Valley, Calif. This clinic marks the eighth location to open in California.

MISSION VALLEY, Calif. (PRWEB) January 24, 2019 -- Modern Acupuncture™, the first franchise to make the natural health and cosmetic benefits of acupuncture available to people in an accessible and affordable delivery, is now available in Mission Valley, Calif. This clinic marks the eighth location to open in California.

Modern Acupuncture offers affordable memberships encouraging guests to add acupuncture to their regular health and wellness routines. There are two service plans provided, one for traditional acupuncture, and the other for cosmetic acupuncture. Depending on the treatment plan, options for additional sessions start as low as $30. Single walk-in sessions are also available.

In celebration of its opening, Modern Acupuncture will offer free initial treatments through the month of February.

“Acupuncture has truly changed my life,” said Jolee Pollock, Modern Acupuncture franchise owner. “I was suffering from anxiety and neck pain from a car accident. The anxiety was so high I found myself struggling with leaving my home to even do the simplest of tasks. After 4 acupuncture sessions, my neck pain went from a 9 to a 2 on the pain scale. I felt calm, balanced and pain free. Through Modern Acupuncture, I look forward to impacting other people’s everyday health.”

Modern Acupuncture offers an enhanced experience that utilizes needle therapy on nodes to increase blood flow. However, unlike traditional acupuncture, it does not require the removal of any clothing to access full-body health. A visit to Modern Acupuncture feels like a relaxing retreat, where guests can unwind and possibly even fall asleep, zoning out to peaceful music all while experiencing the healing and/or cosmetic benefits of acupuncture. Sessions are typically 30 minutes or less, and walk-ins are welcome.

“I first started using acupuncture three years ago for my chronic TMJ pain,” said co-owner Candace Pierce. “I was told by a specialist that I needed to have surgery and I wanted to avoid that at all costs. I clenched at night due to stress and I tried everything I could think of to naturally overcome it. A friend suggested acupuncture and it has been life changing for me. By treating the underlying issues of stress and anxiety my clenching stopped. I feel so incredibly blessed to now be facilitating this type of life changing healing for as many people as possible through Modern Acupuncture.”

Upon entering Modern Acupuncture, guests are greeted by simplistic yet contemporary decor with calming colors and natural wood elements, sending them into an instant state of tranquility. After a customized consultation with a Modern Acupuncture Zen Advisor, guests are taken back to the Zen Den, a relaxing retreat outfitted with soundproof insulation, lounge-style recliners, calming sounds and cool earth tones, ensuring a multi-sensory experience while essential or cosmetic acupuncture services are delivered. Guests leave with a customized treatment plan and a complimentary handcrafted organic tea blend.

Acupuncture is administered by acupuncturists who have been certified by the National Certification Commission for Acupuncture and Oriental Medicine (NCCAOM®) after completing a three-year masters
degree from an accredited school. They are further trained in the specific method used at Modern Acupuncture by Robert Doane, EAMP, L.AC., DIPL., C.H., co-founder at Modern Acupuncture and world-renowned acupuncturist and educator.
