KoreSummit - Tokenizing Securities is Coming to Hot Miami

Event will feature fireside chat panels and educational workshops on February 20th

NEW YORK (PRWEB) January 24, 2019 -- Following the huge success of the first KoreSummit, in New York this past October, KoreConX is now taking the event to the sunny shores of Miami, Florida, in an expanded version.

“The first KoreSummit was a half-day event and our guests wanted more. So now we are making it a full-day event, bringing in more experts and covering more topics. This is an invite-only educational summit for entrepreneurs, CEOs, CFO, lawyers, marketers, investors, VC, Family office, shareholders, and advisors to learn more about tokenizing securities,” said Oscar Jofre, Co-Founder & CEO at KoreConX.

The goal of the KoreSummit is to provide much-needed education about all things related to tokenizing securities, including (among others): details of what tokenization entails, legal and compliance aspects, marketing a Securities Token Offering “STO”, investor relations post fundraise, highlights of the role of regulated issuance platforms and secondary market trading.

“Tokenized securities will completely transform the way we do business in 2019 and beyond. While these new technologies can bring much-needed security, compliance and most important efficiencies to the private capital markets, there is still a lot of confusion surrounding these terms,” said Kiran Garimella, Chief Scientist & CTO at KoreConX. “This is why we created the KoreSummit, so business leaders can learn about what is to come, and take full advantage of all the benefits that tokenization has to offer.”

The global securities marketplace is changing, and the future is tokenization. Combining corporate and securities law with tokenization facilitates efficient liquidity and fully-compliant transactions in multiple jurisdictions.

“We have come a long way since the creation of the JOBS Act in 2012. We now have the necessary conditions for every company to tokenize their securities and completely transform their relationship with the capital markets,” said Jason Futko, Co-Founder & CFO at KoreConX. “But it is also important for people to understand the legal responsibilities that come along with tokenization. And that’s our main goal with the KoreSummit Tour: to educate the public.”

The keynote, fireside chats will take place in the main hall, while workshops about topics such as the legal requirements for tokenization, will take place in smaller breakout rooms. The event will start at 8:30 am and will end at 5:00 pm followed by a cocktail hour. Breakfast, lunch and the evening cocktails are included for the convenience of the attendees.

About KoreConX
KoreConX is the world's first highly-secure permissioned blockchain ecosystem for fully-compliant tokenized securities worldwide.

To ensure compliance with securities regulation and corporate law, the KoreConX all-in-one, AI-based
blockchain platform manages the full lifecycle of tokenized securities including the issuance, trading, clearing, settlement, management, reporting, corporate actions, and custodianship. KoreConX connects companies to the capital markets and secondary markets facilitating access to capital and liquidity for private investors.

KoreConX is the first secure, all-in-one platform for private companies to manage their capital market activity and stakeholder communications. Removing the burden of fragmented systems and inefficient tools across multiple vendors, KoreConX offers a single environment to connect companies, investors and broker/dealers. Leveraged for investor relations and fundraising, private companies can share and manage corporate records and investments including portfolio management, capitalization table management, virtual minute book, security registers, transfer agent services and virtual deal rooms for raising capital.
