About Furniture Clinic
Furniture Clinic was originally founded in 2004 in North East England by Keith and Ben Staerck, a father and son team, who began developing a unique range of leather, fabric and wood products that can be used to clean, restore and protect items across furniture, car interiors, clothing, handbags, purses, saddles and many more.

The company went from strength to strength and international interest followed. Due to significant demand from across the Atlantic, in 2013, Furniture Clinic USA was launched by CEO, Craig Boyd, to distribute these innovative products across North America. Since then, Furniture Clinic has become one of the most trusted names in the industry here in the USA, with exemplary feedback from consumers, professionals and the media.
