Melinda Wadsworth Neal’s Newly Released “Extraordinarily Ordinary” is a Heartbreaking Personal Journey From Grief to Wholeness

“Extraordinarily Ordinary” from Christian Faith Publishing author Melinda Wadsworth Neal is a poignant memoir reflecting on the author’s unremarkable upbringing and the devastating loss of her parents at a turning point in her journey to self-fulfillment, ultimately learning to rely on God to carry her through.

MEADVILLE, Pa. (PRWEB) February 18, 2019 -- “Extraordinarily Ordinary”: a wise, optimistic autobiography, is the creation of published author Melinda Wadsworth Neal, a PRN speech-language pathologist and married mother of two from Muscle Shoals, Alabama.

Neal shares, “During a life-altering weekend in August 2015, Melinda promised her mother that she would begin making herself a priority, taking care of her physical, emotional, and spiritual welfares. It was at this time that 2016 was declared as the ‘Year of Melinda.’

In September 2015, Melinda then found herself in the most excruciating valley of her adult life due to the loss of her mother. This loss taught lessons of grief being messy, depression being extremely real, but God being so much bigger than all situations—even those of greatest heartache. Melinda used this loss, drawing closer to God.

Nearly two years after this life-altering loss, Melinda then lost her only remaining parent—her father. This time, however, she clung to the comforting assurance of God being all that is necessary. With her eternity known, Melinda was to now use grief sustained from her father’s Heavenly homegoing to draw others closer to God.

Through life’s highs and lows, Melinda journeyed through to a better understanding of her earthly purpose. Through life, love, and loss, God provided hope in this always beautiful, but sometimes broken world—altering Melinda’s ordinary into the extraordinary.”

Published by Christian Faith Publishing, Melinda Wadsworth Neal’s new book is a sobering work that contends with a person’s sense of purpose and fulfillment, a lesson in how to get back on track when life’s foundations shift underfoot.

Neal writes with a newfound sense of security and inner beauty that will touch readers who find themselves in similar straits of not quite knowing whether they are destined for anything greater than the pain and unfairness of life.
