Pixel Film Studios Reveals Pro3rd Vintage Volume 2 for Final Cut Pro X.

*Developers at Pixel Film Studios, creators of visual effect tools for the post-production and broadcast markets, announced the availability of Pro3rd Vintage Volume 2 enabling film editors to add vintage lower thirds to Final Cut Pro X projects.*

ALISO VIEJO, Calif. (PRWEB) February 14, 2019 -- *Pro3rd Vintage Vol. 2* is a collection of 30 professionally designed Lower Third Titles. Pro3rds have numerous animation options that can be combined to create truly unique animations. Customize every element of the preset such as font, color, size, scale, position and more all directly inside of Final Cut Pro. Introduce a new level of professionalism with Pro3rd Vintage Vol. 2.

Pro3rd Vintage Vol. 2 includes 30 lower third titles created exclusively for Final Cut Pro X. Each Pro3rd Vintage Vol. 2 preset is adaptable to any project and features customizable animations, colors, and more.

Pro3rd Vintage Vol. 2 is best used to introduce a person. Just replace the text with the name of the person in the footage and set a desired animation. Create a professional lower third with ease.

Each lower third is ready-to-use with pre-selected animations, but users can quickly change the animation of the title by selecting presets from drop-down menus. Adjust the animation of any layer of text and the focus group. Fine tune the animation on any design with Pro3rd Vintage Volume 2.

Established in 2006, Aliso Viejo, California-based Pixel Film Studios is an innovative developer of visual effects tools for the post-production and broadcast community. Their products are integrated with popular non-linear editing and compositing products from Apple FCPX. Apple, the Apple logo, Mac OS X, and Macintosh are registered trademarks of Apple Inc. in the U.S. and/or other countries. All other trademarks and trade names are the property of their respective owners.
