Ranger Point Precision Introduces Trijicon RMR Mount for Steyr Arms Pistols

*Ranger Point Precision adds to its line-up of Steyr Arms pistol performance parts with its new Trijicon RMR mount. This adds to the company’s other popular products including: match grade standard and threaded barrels in 9mm, .357 Sig and .40 S&W; steel guide rods and brass weights; mini-comps, thread protectors and more.*

CYPRESS, Texas (PRWEB) February 21, 2019 -- At the overwhelming request of Steyr Arms pistol owners, Ranger Point Precision is introducing the new Trijicon RMR mount that fits all Steyr Arms Gen 1 and A1 pistols as well as the coming soon Steyr Arms MF pistols available this Spring 2019.

The Trijicon RMR mount replaces the rear sight to allow for the mounting of any Trijicon RMR. Simple installation requires removing the rear sight and using the sight dovetail to install the Trijicon RMR mount. No modifications are needed to the slide. Mounts are made from hard anodized 7075 aluminum. Dovetail tenon attach plates are made from steel and salt bath black nitride coated for extreme durability.

The Trijicon RMR mount and all parts weigh-in at a mere .4oz and include:
1 - Trijicon RMR mounting plate
1 - Dovetail tenon
2 - Mount screws (and Allen wrench)
2 - RMR screws (and Allen wrench)
