Benefits of Keeping a Fish Tank and the Science and Feng Shui Behind It

If you’re into Feng Shui, you probably know that placing a fish tank somewhere in your home gives you wealth or money luck

We humans have a natural attraction to water. We cannot survive without it, and we cannot grow plants or domesticate animals to feed ourselves if water is completely absent from us. So perhaps its beneficial effects on us have to do with our survival instincts, or perhaps its embedded deep in our mind with our DNA composition.
Pets Warehouse Stores offer a large selection of healthy Marine, Tropical Fish, Cichlids, Corals and Aquarium plants.
