OCLI Presents Impressive Roster For Its 28th Continuing Education Day For Optometrists

Doctors from OCLI and the Mackool Eye Institute present at Continuing Education Day for Optometrists last month.

GARDEN CITY, N.Y. (PRWEB) April 11, 2019 -- OCLI, a Spectrum Vision Partners ("SVP") managed practice, is a multi-location, best-in-class ophthalmology practice recognized for leadership and innovation, hosted their 28th Continuing Education Day for Optometrists at The Heritage Club in Farmingdale, NY. The event was attended by 205 Optometrists who earned COPE credits while learning about advancements in ophthalmic diagnostic tools and treatment protocols. OCLI lecturers included; Dr. Bokkwan Jun, Dr. Alison Angelili, Dr. Paul Krawitz, Dr. Eric Donnenfeld, Dr. Ketan Laud, and were joined by Dr. Richard Mackool and Dr. RJ Mackool, from the Mackool Eye Institute and Laser Center, Astoria, NY.

"OCLI has consistently provided a quality CE program, and as we grow and evolve, we hope to welcome more attendees to learn about the innovation our physicians and partners are working toward," says Tom Burke, CEO of Spectrum Vision Partners. "The excitement for our program increases with each new offering, and we intend to sustain that momentum.

“Our program created a buzz that lead to a strong turnout for this CE event, and I would attribute that to the caliber of speakers we had presenting,” claims Dr. Eric Donnenfeld. “Our lecture hall held collective centuries of experience and innovation in ophthalmic surgery.”

"OCLI's CE event is of extremely high quality. It is also superbly organized, and it was a pleasure to join the thought-leaders on the faculty," stated Dr. Richard Mackool of the Mackool Eye Institute and Laser Center.

“The attendees were engaged and interested, asked thoughtful questions, and clearly enjoyed the collegial interchange,” noted Dr. R.J. Mackool.

OCLI has hosted the event twice a year, offering a wide range of topics presented by some of the top Ophthalmologists. The presenters spoke about alternative surgical protocols for increased success in patient outcomes, challenging case studies, nuances to aid in early detection of various conditions, and methodology for OCT interpretation. Attendees also seized the opportunity to network and get to know the OCLI team first-hand.

About OCLI
Founded in 1997, OCLI is one of the leading ophthalmology practices in the United States. OCLI boasts 19 state-of-the-art medical facilities across Manhattan, Nassau, and Suffolk counties, housing the most advanced technology available, to offer patients a variety of ophthalmic services and treatments. OCLI is led by 39 highly skilled eye surgeons in each major sub-speciality of eye care, providing comprehensive eye care services, including treatment for cataracts, corneal disease, refractive surgery, glaucoma, oculoplastics, retinal disease, and neuro-ophthalmology. OCLI also employs six Doctors of Optometry, three Physician Assistants, and one NYS Licensed Aesthetician.
