The Dynamic Robert F. Kennedy, Jr., Esq., to Keynote at the 4th Annual International HPV Vaccine Education Symposium in Chicago

"HPV Vaccines and Corporate Responsibility" headline topics at Chicago symposium.

LOS ANGELES (PRWEB) April 24, 2019 -- Robert F. Kennedy, Jr., is Chairman and Chief Legal Counsel for Children’s Health Defense. His reputation as a resolute defender of the environment stems from a litany of successful legal actions. Mr. Kennedy was named one of TIME magazine's "Heroes for the Planet" for his success helping Riverkeeper lead the fight to restore the Hudson River. The group's achievement helped spawn 300 Waterkeeper organizations across the globe. And now he is leading the charge to preserve rights for children and families. Whether it is defending the rights of children to be protected from toxins in biologics or defending the rights of families to avoid those toxins, Robert F. Kennedy, Jr., is on a mission to make their voices for their choices for good health be heard.

Mr. Kennedy will be the Keynote lecturer at the 4th Annual International HPV Vaccine Education Symposium in Chicago, where he will speak on “HPV Vaccines and Corporate Responsibility.” Corporations that manufacture vaccines have unparalleled legal immunity from liability for injuries caused by vaccines. Over the last decade we have seen evidence of increasing numbers of severe injuries to children from aggressively marketed HPV vaccines - this is a worldwide phenomenon. For the well-being of our boys and girls in the U.S. and globally - who are the target audience for marketing and legislative efforts mandating that they receive the HPV vaccine – we need to develop effective mechanisms to force vaccine manufacturers that market HPV vaccines to take meaningful responsibility for the emerging global calamity of HPV vaccine injury.

The 4th Annual International HPV Vaccine Education Symposium is being hosted May 22-24, 2019, at the AutismOne 2019 Conference at the beautiful Loews Chicago O’Hare Hotel. Leading scientists, clinicians, authors, and others from around the world will be speaking at this unprecedented educational event.
