Medgaus Dental Group Helps More Patients in Pittsburgh, PA Receive Dental Implants with Complimentary Care

Medgaus Dental Group now offers a new dental implant promotion in order to make dental implants more accessible to its community. Patients with missing teeth can now receive a complimentary consultation, complimentary clinical exams and cleanings for one year, and a 5-year clinical guarantee on their dental implants in Pittsburgh, PA.

Pittsburgh, PA (PRWEB) April 30, 2019 -- Drs. Carl Medgaus and Maelys Aguila of Medgaus Dental Group welcome patients with missing teeth to experience the life-changing benefits of dental implants in Pittsburgh, PA through their new dental implant promotion. Although a truly transformative solution to tooth loss with lasting benefits to overall health, this team understands that the cost of dental implants may dissuade many from receiving a consultation and thus, the care they need. As a result, Dr. Medgaus and Dr. Aguila are welcoming patients for complimentary consultations, including an exam, x-rays, and CT scan (a $750 value), as well as a 5-year implant warranty and complimentary exams and cleanings for the first year (a $980 value) for patients who receive dental implants from the practice.

Patients suffering from one or more missing teeth often struggle to eat comfortably, talk clearly, and feel confident in the appearance of their smiles. Without teeth, the mouth can physically change, as bone shrinks and remaining teeth shift, altering the bite. Many options exist to replace missing teeth, but dental implants remain the only permanent solution. Designed to mimic the structure of a natural tooth, dental implants surgically placed into the jaw bone restore virtually 100 percent of tooth function and look and feel completely natural. Medgaus Dental Group now offers a dental implant promotion in order to make this revolutionary tooth replacement available to more patients in the community.

Medgaus Dental Group provides comprehensive dental implant services in a welcoming and genuine atmosphere. Dr. Medgaus, founder and lead dentist, has placed over 5,000 dental implants and has over 45 years of experience. Combining his extensive training and experience with the latest dental technology, he routinely provides life-changing cosmetic and functional smile makeovers with dental implants. The comprehensive services offered at Medgaus Dental Group include cosmetics, general dentistry, TMJ and sleep apnea treatment, and Dr. Medgaus’ own full arch implant technique called Stabili-Teeth™.

Patients seeking to replace missing teeth with dental implants in Pittsburgh, PA, are encouraged to take advantage of the dental implant promotion at Medgaus Dental Group. New patient appointments can be scheduled by calling 412-563-6333 or visiting www.medgausdentalgroup.com.

About the Dentists

For over 35 years, Medgaus Dental Group has been serving the Monroeville and Pittsburgh, PA areas with genuine and comprehensive dental care. Founder and lead dentist, Dr. Carl Medgaus, is dedicated to continuing education for himself as well as his fellow clinicians. Having treated over 300,000 patients since 1973 and placing over 5,000 dental implants, his results speak for themselves. His associate, Dr. Maelys Aguila, is a native Spanish speaker who shares the same philosophy that changing a smile can change a life. Developing his own full arch dental implant technique, Stabili-Teeth™ Dr. Medgaus and his team also offer life-changing smile makeovers and gum disease treatment, among other services. To learn more about Drs. Medgaus and
Aguila, their leading-edge practice, or the services they offer, visit www.medgausdentalgroup.com or call their Monroeville office at 412-373-0310 or their Pittsburgh practice at 412-563-6333.
