SIA Education@ISC Seeks Conference Proposals for ISC East 2019 and ISC West 2020

Conference proposals sought on critical issues, relevant technologies and new strategies for today's dynamic security market.

SILVER SPRING, Md. (PRWEB) April 30, 2019 -- The Security Industry Association (SIA) and ISC Security Events have announced that the SIA Education@ISC team is seeking quality session proposals for ISC East 2019 and ISC West 2020. Proposals can be submitted for ISC East and West starting Wednesday, May 1.

ISC West – North America’s largest security event with an attendance of more than 30,000 – and ISC East – the premier security event in the Northeast, attended by 7,500+ security and public safety professionals – are considered the two leading U.S. events for the security industry. ISC East 2019 will be held Nov. 20-21 at the Javits Center in New York City, and ISC West 2020 will take place March 17-20 at the Sands Expo Center in Las Vegas, Nevada. SIA Education@ISC – the educational conference program within the ISC West and East trade shows – is the top industry resource for vendor-agnostic security and network training, with critical information on the newest technologies and most critical issues and strategies shaping today’s evolving security market.

“This is a good opportunity to remain competitive in the security space, professionals must stay current with the latest industry developments and trends and keep up to pace with innovation in technology,” said Elli Voorhees, SIA’s director of education and training. “SIA Education@ISC provides attendees with the opportunity to enhance their industry knowledge and improve competence through hands-on workshops, product training and a wide range of technology-specific speaker presentations.”

SIA Education@ISC East session content is particularly designed for two groups: systems integrators/security installing firms and security practitioners. The program at ISC West features content from many aspects of the channel, including unmanned systems, video surveillance and business development. All educational sessions must be commercial free; presenters are prohibited from marketing products or services through the sessions.

Security experts, technologists, educators and trainers are all encouraged to submit proposals starting May 1. Learn more about submitting for ISC East and ISC West.

About SIA
SIA (securityindustry.org) is the leading trade association for global security solution providers, with nearly 1,000 innovative member companies representing thousands of security leaders and experts who shape the future of the security industry. SIA protects and advances its members’ interests by advocating pro-industry policies and legislation at the federal and state levels, creating open industry standards that enable integration, advancing industry professionalism through education and training, opening global market opportunities and collaborating with other like-minded organizations. As the premier sponsor of ISC Events expos and conferences, SIA ensures its members have access to top-level buyers and influencers, as well as unparalleled learning and network opportunities. SIA also enhances the position of its members in the security marketplace through SIA GovSummit, which brings together private industry with government decision makers, and Securing New Ground, the security industry’s top executive conference for peer-to-peer networking.

About the ISC Security Events
The ISC Security Events are owned and operated by Reed Exhibitions, the world’s leading event organizer with over 500 events in over 30 countries. The ISC Security Events include ISC West, ISC East, ISC Brazil and Expo Seguridad Mexico powered by ISC, in addition to the Unmanned Security Expo New York. ISC West is the portfolio’s flagship event with over 1,000 security exhibitors and brands participating, and 30,000 industry professionals in attendance. ISC West takes place annually in April at the Sands Expo in Las Vegas, Nevada; the 2020 event will be held March 17-20. Visit iscevents.com to learn more about ISC Security Events.
