TRUMP: Man, Phenomenon, President --- Great Book

Dr. Wendell V. Fountain has authored an outstanding book on President Trump. He has examined what the president has promised and what the president has done.

SURPRISE, Ariz. (PRWEB) October 15, 2019 -- TRUMP: Man, Phenomenon, President is an outstanding, well-researched book about President Trump authored by an outsider--Dr. Wendell V. Fountain of Surprise, Arizona, who is a business-owner-consultant, entrepreneur, business graduate professor, and writer of more than three decades. He has captured the essence of President Donald J. Trump.

This book is an excellent educational tool about the president, We the People's agenda, and the need to return to the thought and actions of our Founding Fathers, rather than misguided ruminations of failed socialism which is embraced by the Democrat Party. Thank God we are the inheritors of a dynamic republic. The 55 Founders gave their all for the creation of this sovereign nation. Essentially, they were political entrepreneurs, and we must not let what they sacrificed be in vain.

The choice is clear in 2020. America simply has no other option. President Trump must be reelected, which also includes the election of enough conservative republicans, not fake republicans (F-Rs), to allow for things to get done by the President for We the People. Democrats have failed miserably over the past two years to get a thing done for the citizens of this nation. They have wasted our time, money, and life for nothing while trying to undo the results of the 2016 election. The voters have had enough of Russia collusion, fake dossiers, lies, and a phony impeachment attempt. It's time to move these anti-America democrats out of the People's House. We want conservative representation--men and women who will follow an aggressive agenda for all Americans.
