The Leadership Edge Celebrates 30 Year Anniversary: Anticipates The Next 30

Exclusively serving the life science industry since 1989

LA JOLLA, Calif. (PRWEB) October 10, 2019 -- The Leadership Edge, a life sciences organizational development company, headquartered in La Jolla, California, announced today that it is celebrating its 30th anniversary. The company was founded in 1989 with a commitment to helping life science professionals realize their potential, resulting in a greater impact on the health of the community and ultimately the world.

Over the course of the last 30 years, that vision has become reality. The life science sector has grown from infancy to a significant industry bringing critical life saving devices, drugs and solutions to market. As part of that evolution The Leadership Edge has partnered with over 600 life science companies helping more than 6,500 leaders build and scale their organizations to grow from inception through commercialization more effectively and quickly through a proven Assess, Guide, Develop process.

“We are more driven than ever by our mission to profoundly accelerate the pace, performance and culture of the most innovative life sciences companies in the world,” said Gaylene Xanthopoulos, founder and president of The Leadership Edge. “The vantage point we have from working exclusively in the industry since its infancy provides the context and experience of being behind the scenes with numerous companies’ as they have advanced from being a start-up, to commercializing products. This wisdom and knowledge allows us to give our clients the advantage of an insider’s view, and a formula for success.”

The team’s vision for the future is continuing work with leaders in the industry to help them accelerate the progress of science to not only treat, but find cures for challenging diseases and conditions in order to better the health of humanity.

About The Leadership Edge
Launched in 1989, The Leadership Edge profoundly impacts the pace, performance and culture of the most innovative life science companies in the world. Working from the boardroom to the bench, they are the partner of choice to over 6,500 leaders in more than 600 companies. The group’s proven Assess, Guide, Develop, formula empowers an industry that is driving life changing therapies, diagnostics and devices to reach their goals faster, more cost effectively and safely. The Leadership Edge is driven by the possibility of a future where cures replace treatments, and the health of humanity thrives.
