Drivers can satisfy their need for speed with a new arrival at Toyota of Santa Maria.

Local dealership has the 2020 Toyota GR Supra finally in stock.

SANTA MARIA, Calif. (PRWEB) October 11, 2019 -- There are a lot of good cars out there. People have a lot of different reasons for buying a car, but most people want a car with a lot of performance. Nothing really beats the feeling and sound of a powerful engine revving up. There is no better way to get the heart racing than redlining your car’s engine.

The 2020 Toyota GR Supra is one of the fastest commercially available out there. It is powered by a 3.0L inline-6 twin-scroll turbocharged engine that offers up a lot of power. The Supra has a lot of acceleration and speed. It is also very efficient with an EPA-estimated 24 city and 31 highway mpg. Every Supra is also outfitted with a lot of new and exciting technology. It is one of the most cutting-edge sedans that has ever been produced.

Customers who are interested in purchasing this high-end coupe can stop by Toyota of Santa Maria to schedule a test drive. This car is best experienced in person, so a test drive is highly recommended. The dealership has a physical location at 700 E Betteravia Rd, Santa Maria, CA, 93454. The dealership can also be contacted via their website or over the phone at 805-928-3881.
