Lillie Jefferson’s newly released “A Journey of Faith” is a compelling memoir that shows how every decision affects millions of people, either directly or indirectly

“A Journey of Faith: A True Story of Survival” from Christian Faith Publishing author Lillie Jefferson is a stirring narrative that life is a long and winding journey of ever-changing highways, which will take everyone in a multitude of directions filled with critical decisions to be made.

MEASVILLE, Pa. (PRWEB) November 07, 2019 -- “A Journey of Faith: A True Story of Survival”: an inspiring account that motivates the readers to keep their faith to God and enables them to remember that God walks beside everyone. “A Journey of Faith: A True Story of Survival” is the creation of published author Lillie Jefferson, a person who has learned many true values of life such as patience, forgiveness, endurance, and faith. She has suffered much in pain because of these attributes but still desires that her brothers and sisters in Christ learn that God is a living being who created everyone.

Jefferson writes, “We each are on a path of growth every day of our lives. This journey helps us to see ourselves clearly if it is what we truly desire that. Mine is to develop a firm relationship with God. I learned that faith, true faith, is a pathway to that relationship. This story is an insight into a few of those paths I traveled to develop this part of my relationship with God.”

Published by Christian Faith Publishing, Jefferson’s new book constantly reminds the readers that the time God created humans, everyone was created with a map that guides them in their journey in life—a detailed paradigm on how to live and make it through each everyday journey, a journey that everyone must take until everyone has reached its final destination in life.

With this book, the author wants the readers to always have faith in God no matter how small or big the problems in life are.
