- Higher quality of sleep;
- Decreased anxiety and depression;
- Higher Consciousness and better mental clarity.

In a recent workshop, participants shared their comments about how Guruji Trivedi and the Trivedi Effect have impacted them:

Faith Pyka said, “Although we can never, in this lifetime, become like Guruji, he is a huge inspiration to rise out of the muck and mire and to blossom like the lotus. The most difficult thing for me over the years of helping people is to let people have their own experiences and to not rescue them. This is something I have been working on, and I have learned I am responsible for changing the outcome in my life. I am grateful to have God and Guruji on my side.”

Gary Gerber wrote, “Thank you Guruji for this day. The story of the three monks is so meaningful. You have given so much guidance in how to connect with the divine.”

After Dahry Trivedi spoke, Liz Feeney said, “Thank you, Dahryn, you shared some very clear and practical
wisdom from a fresh perspective, which of course gives it a whole new dimension. Your discussion on
discipline and possibility (and the correlation between the two) was a great reminder for me to check my own
discipline and commitment in some areas of my life.”

Each workshop is filled with Divine inspirations, insightful commentary, and deep thought-provoking
discourses on topics ranging from human conditioning, physical and mental issues such as sleep disorders,
depression, anxiety, and other common life challenges to the development of deeper consciousness and includes
a divine energy transmission.
