Mary Gersten the VP of Operations was instrumental in creating this revolutionary new concept. "The biggest factor why 98% of businesses fail today is because they don't understand the 5 (Real) Keys to Building a Business. The days of get rich quick are over. Today we're finding that clients want a legitimate way to make money from home while doing something they can believe in."

We're committed to provide a broad spectrum of support and educational products for all types of people in the home business and work at home industry- everything from our free tips and online course to those who want a business working to become a Certified Media Placement Specialist.

Once a person learns the keys, there's no limit to what they can achieve.

And, in a commitment to walk our talk, we contribute a percentage of the sales we generate to different causes and organizations.

It's great creating a winning environment where we know that everything we do helps our clients live their dreams and also impacts great causes too.

With Global Cash Flow Network's unique system, a client simply places media and promotes their business, website and unique 1-800 number and extension. There is no selling. No phone calls. No talking to friends and family. No meetings.

Along with the free online course and now an expose from [dont-get-scammed-again.com](#), we are encouraging others to apply for our Certified Media Placement Program by offering turn-key tools and ongoing support with our media coaches.

Estera Mirela Kanabaj, a media placement consultant with <http://www.24hourwebcash.com/kanabaj4817> inspires thousands of people (small business owners, work at home and home business professionals) how to dramatically improve the results of their advertising and marketing.

"The wrong focus can be the death of your business. And the reality is that over 95% of all businesses fail today. Business owners today need to learn innovative strategies for placing media to attract clients and customers.

There are many simple media placement techniques someone can put in place that can double the sales of most businesses", Kanabaj says. There are also heavy anchors that hold businesses back and ultimately create failures in the business profession. Being able to identify these anchors and avoid them is a must. And then being able to put the media placement techniques in place to boost your sales is even better."
