

Secrets In Lace® Vintage Dots Pop up Everywhere

All over the world high fashion stockings from Secrets In Lace are emerging in offices, exclusive restaurants and on fashion avenue's. The most popular choice for two seasons in a row has been the Secrets In Lace Vintage Dot; an authentic recreation of the vintage 100% nylon stockings of the 1950's proving that femininity is alive and well around the world.

([PRWEB](#)) June 23, 2005 -- Women around the world continue to turn to Secrets In Lace for classic nylon stockings and elegant yet functional matching bra, garter belt and panty sets. This Spring and Summer 2005's biggest hit is the Vintage Dot Reinforced Heel and Toe stocking. Available in nine color combinations fashionable women are accessorizing business suits and cocktail dress with this unique sheer leg creation.

The Vintage Dot has tiny dots throughout the leg which create just enough attention to be interesting. Many of our clients tell us they like to accessorize ready to wear outfits with the contrasting color style which has a nude, grey or pink leg color contrasted by black dots explains Co-Founder Daniel Whitsett "Our clients also tell us they like to show the intricate Reinforced Heel and Toe through their strappy sandals as a fashion statement. Our basic stockings in the classic colors are getting a lot of attention also; yellow, light blue, pink and purple are coordinating well with this seasons ready to wear styles. It seems so many women are doing everything they can to bring more attention to their legs and appear and feel more feminine."

The Feminine Way to Layer

What could be more feminine than authentic satin and lace slips inspired by the famous movie *Cat on a Hot Tin Roof*? "A full slip in hot pink or purple to coordinate with this seasons fashion colored stockings" says Mr. Whitsett; slips are another area where Secrets In Lace has been leading the return to femininity. "Full slips and camisoles of intricate lace and shiny satin or silk are meant to be seen and are used as the new second layer under a sheer or semi sheer blouse. Crinolines are used to fill out that loose swing dress for a night of dinner and dance."

Secrets In Lace started in 1984 in a small store front in Virginia where they helped customers "Keep the Romance Alive" by selling matching bra, garter belt and panty sets to coordinate with their authentic nylon stockings. Secrets In Lace was one of the first lingerie and stockings websites to hit the internet in 1995 and since then they have become an internationally known retailer of authentic nylon stockings and elegant matching undergarments. Daniel Whitsett, the company's Co-Founder and President, says their client list is confidential but some of the most important and influential women in the world wear their stockings. "Influential Women from Washington DC, Hollywood, London, Europe, Australia and Japan wear our stockings everyday. Our Clients are always asking about coordinating fashion colors and new styles for each season. Our company is dedicated to meeting the needs of any women who wants to feel feminine under her classic outerwear; women in the workplace, socialites and housewives all are discovering our products"

Curvy Woman®

Secrets In Lace expanded their traditional stocking line to address the fuller figured market by launching Curvy Woman® almost five years ago. What makes the Secrets In Lace Curvy Woman line unique? "The Secrets In Lace Curvy Woman is a dress size 12- 18, we photograph our products on a size 16-18 model so our customers can see what the product really looks like" comments Mr. Whitsett, "no skinny models here even in the classic Secrets In Lace line our models are fuller to help customers visualize our offerings of hard to

find bra sizes. Their stockings cover sizes Petite through 3X while bras and coordinating sets range from 32A to 44F. Secrets In Lace is also Rago's authorized internet retailer featuring the entire Rago line.
