

Monarch Nutrition Launches First Powdered MoodBoost Drink™ - An All Natural Flavored Supplement For Mood Support and Energy

Monarch Nutrition launches MoodBoost Drink. The Patent Pending supplement consists of a unique blend of Vitamins, Minerals, Amino Acids, and Herbal Extracts. The delicious supplement comes with all natural flavors, no artificial sweeteners, and provides mood support and energy.

Dana Point, CA ([PRWEB](#)) August 6, 2009 -- After years of research and development, Monarch Nutrition is pleased to announce the launch of MoodBoost Drink™. The Patent Pending supplement consists of Vitamins, Minerals, Amino Acids and Herbal Extracts and will be available at leading health food stores throughout the country. "We developed more than just a natural energy drink", says Daniel De Carolis, co-founder and CEO of Monarch Nutrition. "MoodBoost Drink™ contains ingredients that have been associated with improving mood and wellbeing." Every serving provides a combination of 5-HTP, L-Tyrosine, L-Glutamine, Taurine, Extracts of Rhodiola Rosea, Ginkgo Biloba, and St. John's Wort. It also contains B Vitamins, Vitamin D, and a blend of minerals consisting of Magnesium, Zinc, Selenium, and Chromium.

The powdered drink mix supplement is conveniently packaged as single servings for the health conscious consumer and easily dissolves in 8-12oz. of water. With only 20 calories per serving, the delicious all natural flavored drink contains no artificial sweeteners but plenty of quality nutrients. [MoodBoost Drink™](#) is the first drink mix supplement to address a healthy mood while providing sustained energy - without caffeine. It's the perfect supplement for late in the afternoon, at work, before going to the gym, or to simply just get you up and going.

In addition to making this drink healthy for the consumer, [Monarch Nutrition](#) is doing its part for the environment. MoodBoost Drink™ packaging is produced with 100% certified wind energy and the product boxes are printed on FSC certified paper from well managed, sustainable forests.

In the coming weeks, health and natural food stores throughout the United States will start carrying the first ever MoodBoost Drink™. "We're very excited about launching this new supplement to meet the growing demand of people looking for a natural way to enhance their moods. After all, who couldn't use a MoodBoost Drink these days?" Initially available in 'Refreshing Tropical', Monarch Nutrition is already working on other all natural, great tasting flavor additions.
