

## **S4i Systems Offers Limited Time Pricing for IBM System i Disk Management Software**

*S4i Systems announces reduced pricing for iSeries disk management software for the month of January.*

*“It’s our way of giving back to the IBM i customer that has supported the platform over the years,” Susanne States, S4i’s director of sales and client services.*

San Clemente, CA ([PRWEB](#)) January 6, 2010 -- S4i Systems ([www.s4isystems.com](http://www.s4isystems.com)) today announced reduced pricing for their disk management software for the month of January.

“It’s our way of giving back to the IBM i customer that has supported the platform over the years,” Susanne States, S4i’s director of sales and client services.

“iSeries shops find the Chart module especially valuable in forecasting, something everyone does in January,” States continues. “Users simply enter the number of days forward they want the disk utilization forecast to address, and S4i’s product will predict future capacity requirements based on current growth trends.”

Promotion pricing is \$2010 per system serial number for any one of the three DASD-plus modules. Products included in the promotion are DASD-Plus, DASD-Plus Alert and DASD-Plus Chart. DASD-Plus focuses on diagnostics, analytics, reporting for disk including iASP. System i shops with S4i’s suite can monitor disk resources with automatic and continuous disk spike monitoring, IFS management, cleanup, file reorgs and manage temp files. With real time-spike detection and graphical displays available, DASD-Plus is the perfect addition to the System i user’s arsenal of tools.

In this limited time offer, orders must be invoiced by midnight January 31, 2010. For more information please visit [www.s4isystems.com/diskmanagement](http://www.s4isystems.com/diskmanagement)
