

Everest Casino Announces Second Game Of The Month for December: European Blackjack

The online casino expands its Blackjack offerings with an additional variation on the classic game.

Montreal QC ([PRWEB](#)) December 21, 2006 -- Everest Casino www.everestcasino.com announced today that the online casino's second game of the month for December is an improved version of its popular online Blackjack. "Blackjack has always been one of our most popular games and we wanted to reward our players with an improved experience," said Eduardo Santos, Everest Casino property manager.

Previously, the online casino offered two variations of Blackjack: Classic and 6-Deck blackjack. In November, Everest Casino added three new rule variations: Vegas Blackjack, Surrender Blackjack, and Double-Deck Blackjack. For the month of December, Everest Casino has added European Blackjack to its list of casino game offerings. Detailed rules for this added variation will soon be made available on the Everest Casino website but are currently available through the software.

"In addition to new variations on Blackjack, we've also completely retooled the interface," added Santos. "Cards used in play are now larger and easier to read, game controls allow faster play, and less mouse movement is required on the player's part. We're committed to making our online Blackjack the best."

Over the next several months, Everest Casino will introduce additional styles of Blackjack to its players. To play Blackjack at Everest Casino, players must first download the free casino software from <http://everestcasino.com/dload>. Everest Casino offers generous bonuses to new players as well as Video Poker and Video Slots clubs for its loyal patrons.
