

Green Mechanical Council™ to Sponsor New Green Mechanical Engineering Pavilion & Educational Sessions at Ecobuild® America

New Green Mechanical Pavilion sponsored by The Green Mechanical Council™ (GreenMech) to be held as part of the Ecobuild America exhibit on green and sustainable building in Anaheim, CA May 15-17, 2007.

Centerville, MA ([PRWEB](#)) March 22, 2007 -- Attendees to Ecobuild America® 2007 can explore a new Green Mechanical Pavilion sponsored by The Green Mechanical Council™ (GreenMech) May 16-17. The Ecobuild America conference and exhibit focused on Sustainable, Green and High-Performance Solutions for the Built Environment will take place at the Anaheim Convention Center in California, May 15-17, 2007. The event is held in cooperation with the Green Building Initiative and the Green Mechanical Council™.

The Pavilion will showcase mechanical systems products and services designed to save energy and reduce emissions. Pavilion visitors will also be interested in related panel discussions also sponsored by GreenMech and moderated by Executive Director Tom Myers: "Engineering Sustainable Retrofits" and "Marrying Green Design and Green Engineering." Complete descriptions and additional sessions are available at www.ecobuildamerica.com.

George Borkovich, Ecobuild America Principal notes, "In support of our goal to deliver high-performance green and sustainable building solutions to every member of the design and construction team, we are happy to expand our educational and product offerings in mechanical systems and engineering. GreenMech is a front runner in educating the industry in this important area to improve the health of our planet. We are happy to have GreenMech's assistance in expanding the knowledge of our attendees in this discipline and directing them to mechanical resources."

Tom Meyer, Executive Director, describes GreenMech as a "Clearing house of information and education for designers, installers, and service techs who deal with mechanical systems every day. They are the people who can have the most immediate effect on reducing energy consumption and greenhouse gas emissions. One of the benefits to manufacturer involvement is there is a feedback communication from the field to the manufacturers making practical changes and improvements to products based on field experience and ingenuity. It's a win-win deal."

For free keynote and exhibit (including the Green Mechanical Pavilion) admission, register for Ecobuild America by April 9, 2007 at www.ecobuildamerica.com

About Green Mechanical Council™

GreenMech is a nonprofit organization formed to promote energy efficient mechanical systems in residential and commercial buildings. To learn more about the GreenMech, visit www.greenmech.org.

About Ecobuild America®, LLC

Ecobuild America®, LLC (Centerville, MA) under the leadership of principals Richard C. Vendola, Jr., and George Borkovich manages and produces Ecobuild® America®, Ecobuild® Fall, AEC-ST®, and AEC-ST® Fall. Together they have a depth of experience in technology and event planning, for the AEC industry, including creating and managing the former A/E/C SYSTEMS International conference and exhibition.
