

Next Generation Logistics, Inc. Announces TMS Interface For Microsoft Dynamics AX

Next Generation Logistics, Inc. a leading supply chain consulting, managed services, and technology company, today announced the release of a comprehensive integration between Next Generation Logistics, Inc. FreightMaster TMS® transportation management suite and Microsoft Dynamics AX, Microsoft's enterprise resource planning (ERP) solution.

Inverness, IL (Vocus) May 30, 2008 -- Next Generation Logistics, Inc. a leading supply chain consulting, managed services, and technology company, today announced the release of a comprehensive integration between Next Generation Logistics, Inc. FreightMaster TMS® transportation management suite and Microsoft Dynamics AX, Microsoft's enterprise resource planning (ERP) solution. This seamless integration will provide [Microsoft Dynamics AX](#) users greater visibility and the tools necessary to effectively and efficiently manage the planning, execution, and settlement of their logistics needs, while exchanging and managing key logistics data.

"As a Certified Gold Partner and Microsoft ISV and Business Solutions provider, Next Generation Logistics, Inc. recognizes the growing number of Microsoft Dynamics AX users and related Microsoft ERP solutions, and decided to leverage the Microsoft Technology stack to deliver a complete supply chain solution," said John Riske, Vice President, Business Development.

"This integration enables us to provide the Microsoft Dynamics AX community extended best-of-breed [transportation management](#) that fits within their technology investment," said Rick Isaacson, CIO, Next Generation Logistics, Inc. "We feel that this integration is ideal considering Microsoft Dynamics AX and FreightMaster TMS® strong presence in food & beverage and consumer goods industries."

FreightMaster TMS® users such as Duro Bag Mfg. Company, the largest paper bag manufacturer in the world will be able to leverage the interface and quickly process orders, plan and optimize loads to lower costs, generate accurate freight accruals, audit and pay freight bills and seamlessly exchange critical logistics financial data between FreightMaster TMS® and Microsoft Dynamics AX.
