Pandora's Box System: Review Names Vin DiCarlo's Program The #1 Dating Guide For Understanding Women

PUABooks.net names Vin DiCarlo's Pandora's Box as the top dating guide for men looking to understand female attraction and 'peek inside a woman's mind'.

Los Angeles, CA (PRWEB) October 24, 2012 -- "Vin DiCarlo's Pandora's Box System is widely regarded as the most cutting edge dating guide for men ever to be released," reports PUABooks.net's Clint Johnson. "After review, we've decided that DiCarlo's program shall be named our #1 best dating guide for understanding women."

The Pandora's Box system was developed by veteran "pick up" and dating guru Vin DiCarlo to assist men with their attracting and dating endeavors by better understanding female psychology. In the program, DiCarlo introduces customers to eight "types" of women that men will encounter on the singles scene, and then provides explicit instructions on how to attract and successfully woo each type.

Johnson explains why Pandora's Box was chosen as the top guide for understanding women:

"This is really the first dating guide to take into account the fact that different women respond differently to different kinds of approaches," says Johnson. "The idea is that by understanding what a woman wants, and how she wants to be treated, a man will have a major advantage over any other guys competing for her affection. Other dating guides we've reviewed offer glimpses at how the female mind works, but Pandora's Box blows things wide open."

In addition to providing insights on female desire, Pandora's box also gives users a simple four step process which according to the Pandora's Box website will allow you to get a woman's telephone number, a date or a first kiss, in a matter of minutes.

"The system involves using what DiCarlo calls 'attraction boosters',' says Johnson. "These are sentences proven to attract women by releasing Oxytocin a brain chemical responsible for emotion bonding. The science behind the Pandora's Box system is simply fascinating. I'm not aware of any other dating guide that incorporates even a fraction of the cutting-edge research that has gone into developing Pandora's Box."
