America’s Health Insurance Announces Certification from the Connect for Health Colorado Marketplace to Assist Consumers in Purchasing a Qualified Health Plan

As Coloradans look to enroll into a qualified health insurance plan through the Affordable Care Act, America’s Health Insurance announces their status as a registered and certified agent in the Connect for Health Colorado marketplace.

(PRWEB) October 31, 2013 -- According to a recent article, the Colorado health insurance exchange website is beginning to work better. Recent glitches to the website have kept many Coloradans from enrolling into a qualified ACA health plan. Despite the glitches, America’s Health Insurance, a nationwide agency with licensed Colorado agents, has been working alongside clients to access eligibility for a qualified health plan in the state-run marketplace.

It is a requirement that all agents and brokers be registered and certified to help uninsured Coloradans enroll and purchase qualified health insurance plans through the Colorado health insurance marketplace, also known as Connect for Health Colorado.

The agents at America’s Health Insurance have completed the required training and have passed all of the required exams to become registered and certified agents to assist and sell in the Colorado health insurance marketplace.

Colorado consumers who are shopping for health insurance will be able to purchase plans through America’s Health Insurance as their registered and certified agent in the Colorado health insurance marketplace. Agents at America’s Health Insurance will be able to help assess a consumer’s eligibility for a qualified health plan, assess the consumer’s eligibility for subsidy, and assist in the enrollment and purchasing of a qualified health plan.

America’s Health Insurance has been in the health insurance industry for over 30 years. They are one of the top three health insurance producers in the United States. As the Affordable Care Act rolls out, they are working hard to bring the best possible health care coverage for their clients, and to help alleviate any confusion in the process of enrolling into a qualified health plan through the Marketplace. America’s Health Insurance can be reached by phone 1-888-589-3000, or contacted through their website at http://www.ahifw.com
