Executive Summary of the report:
The Firearms and Ammunition industry manufactures small arms (including shotguns, rifles, revolvers, pistols, machine guns and grenade launchers), small arms ammunition, other ammunition and ordnance and accessories. Firearms and ammunition makers of the United States has benefited from conflicts abroad and domestic fears about rising crime rates. While continued conflict will support revenue growth in the near future, demand for the industry's products will slow down in the light of diminishing concerns. In the United States, majority of citizens owns a gun as the denial rate in background checks for the licensing of guns is very low, which is the main reason for growth of firearm industry in the country.
