About The Rome Foundation
The Rome Foundation is an independent not for profit 501(c)(3) organization that provides support for activities designed to create scientific data and educational information to assist in the diagnosis and treatment of functional gastrointestinal disorders (FGIDs). Its mission is to improve the lives of people with functional GI disorders. Visit them at http://www.romecriteria.org/.

About EnteraGam™
EnteraGam™ (serum-derived bovine immunoglobulin/protein isolate, SBI) is a new prescription medical food product to help people manage ongoing problems with chronic loose and frequent stools (diarrhea). EnteraGam™ is required to be used under physician supervision as part of ongoing medical care for a specific condition or disease. EnteraGam™ is indicated for the clinical dietary management of enteropathy in patients who, because of therapeutic or chronic medical needs, have limited or impaired capacity to ingest, digest, absorb, or metabolize ordinary foodstuffs or certain nutrients. Visit our product website at http://enteragam.com/.

About Entera Health, Inc.
Entera Health, Inc. is focused on improving worldwide health through the development of clinically safe biotherapeutics to address unmet needs. Our passion is to help people thrive through healthier living. Our
motivation for conducting basic research, clinical studies, and appropriately educating patients and healthcare providers is driven to meet this goal. Visit us at http://www.enterahealth.com.
