Dr. Alan J. Bauman Named to Annual List of Top Hair Restoration Surgeons by Aesthetic Everything

Nationally recognized hair transplant expert and new treatment pioneer Dr. Alan Bauman ranked No. 2 on 2015 Top Hair Restoration Surgeons in America listing.

Boca Raton, Florida (PRWEB) October 20, 2015 -- Nationally renowned hair loss pioneer Alan J. Bauman, M.D. has been named to Aesthetic Everything’s prestigious list of top hair transplant surgeons.

Dr. Bauman is ranked #2 among all US hair restoration surgeons in the US, according to the aesthetic network’s new study. After reviewing nearly 1,500 votes, Aesthetic Everything consulted with Castle Connolly, the U.S.’ preeminent medical-database authority, to identify the highest-rated practitioners in their specialties, all of whom are nominated by their peers in an extensive survey process of thousands of U.S. doctors each year. The current ranking evaluated doctors’ medical education, training, hospital appointments, expert source status with the national media and disciplinary histories.

“Thank you to our patients who took the time to express their satisfaction with their hair growth treatments and hair transplant procedures, as well as to my colleagues in the medical community for giving Bauman Medical Group a top rating in the field,” Dr. Bauman commented in response to the ranking. “Thank you to my incredible team for their hard work and support through the years and for continuing to strive for excellence.”

Throughout Bauman Medical Group’s almost two decades of service to male and female hair loss sufferers, Dr. Bauman and his medical team have relied upon verified real patient feedback as a key internal measure of success and an opportunity to review and refine the practice to further improve its services for patients. Dr. Bauman’s reviews currently hold a 93% patient satisfaction score on RealPatientRatings.com. “Verified real patient feedback has made an enormous difference to my practice over the years, and it’s part of the reason why we’ve been so successful,” Dr. Bauman said. “Patient satisfaction is the number one goal at Bauman Medical, and we pay close attention to all of the feedback we receive.”

Dr. Bauman founded Bauman Medical Group in 1997, where he has served as medical director for the past 18 years, during which time he’s treated over 17,000 men and women suffering from hair loss. Last year, Bauman Medical moved into a new state-of-the-art facility in Boca Raton, Florida. At more than 11,000 square feet, the Bauman Medical Hair Transplant and Treatment Center is the largest stand-alone treatment center in the world dedicated exclusively to hair transplantation and the treatment of hair loss.

“After 18 years, I’m confident that the key to consistently delivering high quality patient care and the best, most outstanding results in hair transplantation is having a talented team that carries out ‘the mission’ with passion and professionalism,” Dr. Bauman affirmed. “Being ‘Number 2’ reminds us to be humble and also reaffirms that there’s always room for improvement in how we care for our hair loss patients.”

Dr. Bauman, best known for his hair transplant artistry, has pioneered many new treatments, including NeoGraft FUE, which is a minimally invasive method of hair follicle harvesting eliminating the risk of a linear scar common in traditional transplants. In 2008 Dr. Bauman became the first ABHRS-certified hair restoration physician to routinely use NeoGraft FUE for hair transplant procedures. Dr. Bauman has served as a faculty member at numerous scientific meetings and live surgery workshops, and has authored several textbook chapters on hair transplantation. In addition, his work has been featured extensively in the national media, with
appearances on the Today Show, CNN, Good Morning America, Extra, Access Hollywood and Dateline NBC, among others.
