The American Society for Laser Medicine and Surgery (ASLMS), the world's preeminent resource for laser research, safety, education and clinical knowledge, announces a monumental gathering of laser innovation and advances that is not to be missed! "LASER09, the Society's 29th Annual Scientific Conference will take place on Wednesday, April 1, through Sunday, April 5, 2009, at the Gaylord National Resort & Convention Center, in National Harbor, Md., conveniently located near Washington, D.C.

Wausau, Wisconsin (PRWEB) September 10, 2008 -- The American Society for Laser Medicine and Surgery (ASLMS), the world's preeminent resource for laser research, safety, education and clinical knowledge, announces a monumental gathering of laser innovation and advances that is not to be missed!

"LASER '09," the Society's 29th Annual Scientific Conference will take place on Wednesday, April 1, through Sunday, April 5, 2009, at the Gaylord National Resort & Convention Center, in National Harbor, Md., conveniently located near Washington, D.C.

The Annual Meeting of the ASLMS provides physicians, researchers, related medical professionals, industry and the media with the latest research findings, scientific studies and clinical breakthroughs in lasers and emerging technologies for patient treatment, diagnostics and devices. The multi-specialty educational program features presentations and workshops in plastic surgery, dermatology, ophthalmology, oncology, urology, gynecology, dentistry and more.

Call For Abstracts. Submission of abstracts is now open and available online at www.aslms.org. Deadline for abstracts is October 31, 2008.

Travel Grants. Travel grants are available for students, residents and fellows, plus the conference registration fee will be waived. Apply online at www.aslms.org. Deadline is October 31, 2008.

Mark your calendars now and join us for the opportunity to share new scientific and clinical data with colleagues, develop indepth knowledge of laser-based procedures through courses led by world-class experts, and visit the exhibits to learn about the newest products and services.

The ASLMS was founded in 1980 to promote excellence in patient care by advancing clinical application of lasers and related technologies. Currently, the Society has over 4,000 members representing more than 45 specialties and is a valuable resource for laser research, safety, education and clinical knowledge. For more information and referrals to laser specialists, visit www.aslms.org.
