

San Francisco, CA (PRWEB) June 23, 2016 -- ClinCapture, the only free validated electronic data capture (EDC) software, is exhibiting at the Pennsylvania Convention Center and will showcase its product’s latest features from June 26 to June 30, 2016 for the DIA Annual conference. ClinCapture will also be presenting a scientific poster on Disrupting Clinical Trials in The Cloud during the conference. DIA (Drug Information Association) is the largest gathering worldwide of life science professionals from the pharmaceutical industry.

The company will be stationed at Booth 1648, where guests will be able to spin the wheel of fortune for a chance to win a variety of prizes. Booth goers can also grab a prop and strike a pose with friends and coworkers.

ClinCapture’s Electronic Data Capture (EDC) experts will demonstrate the only Do-It-Yourself EDC software that is available for free. ClinCapture will showcase some of its latest product innovation, including its Case Report Forms (CRF) library, reporting capabilities, and advanced features such as randomization and medical coding.

Director of Product Operations Eric Morrie will be presenting a scientific poster on Disrupting Clinical Trials in The Cloud. The poster will be available to view from 9-5 pm on Tuesday and 9-4pm on Wednesday. The poster session times to interact with the poster author are listed below:

- Tuesday, June 28
  - 9:40 - 10:20 AM and 12:00 – 1:45 PM
- Wednesday, June 29
  - 9:40 - 10:20 AM and 12:00 – 1:45 PM

About DIA:
DIA 2016 is the largest global interdisciplinary event that brings together key thought leaders and innovators from industry, academia, regulatory and government agencies, health, patient, and philanthropic organizations from around the globe – and across all disciplines involved in the discovery, development, and life cycle management of health care products.

About ClinCapture:
ClinCapture is a cloud-based eClinical software, ClinCapture empowers CROs, Pharmaceuticals and Medical Device companies to build their studies themselves, lower their clinical trials costs and streamline their data capture processes. Adopted by more than 15,000 users globally and with over 260 active clinical studies, ClinCapture has grown significantly in the past two years to become the number one solution of choice to replace paper with to the launch of its Freemium, DIY (do it yourself) electronic data capture platform.
If you would like to arrange to meet with a member of our team at the DIA event, then please get in touch at contact(at)clincapture(dot)com
