The agreement also gives GOBI users access to content from nine publishers exclusive to Digitalia, including Biblioteca Nueva, Anthropos, Visor and more.

GOBI provides users with access to more than 13 million titles, including more than one million e-books from more than 25 publishers and aggregators, all in one place. GOBI customers also benefit from duplication control across all formats, full-text reviews and refined selection lists, Spotlight Lists highlighting premier and high-interest titles, real-time management reports and more.

A leading aggregator of Spanish e-books, Digitalia’s catalog provides libraries that use GOBI with strong content in the Social Sciences and Spanish and Latin American Literature. Titles are available title by title with unlimited user access models and are quickly delivered to users within minutes.

Lluis Claret, CEO of Digitalia Hispanica says, “We are very excited to launch this new partnership with one of the most important and respected distributors for libraries, GOBI Library Solutions.
