Shady Grove Fertility Named Optum™ Center of Excellence for Infertility

As the largest infertility provider in the United States, offering superior clinical care and results, Shady Grove Fertility has been designated a Center of Excellence by Optum™.

Rockville, MD (PRWEB) March 22, 2017 -- Shady Grove Fertility, a respected leader in the fertility community, which has helped bring more than 40,000 babies into this world—more than any other center in the nation, has been designated a Center of Excellence by Optum.

Optum and Shady Grove Fertility are committed to providing quality infertility services to men and women trying to conceive. According to Optum, “The truth is, not all health care providers are created equally. For complex medical conditions, the disparity is especially high. Through a rigorous evaluation process, Optum has developed Centers of Excellence networks that provide access to clinically superior, cost-effective health care.”

In order to earn this distinction, Shady Grove Fertility demonstrated successful clinical outcomes and exceptional physician experience, staffing, and facilities, as well as maintained accreditation status and continuous quality assurance.

As a result of increased demand from patients, Shady Grove Fertility has recently welcomed three new physicians to the Pennsylvania medical team.

Dr. Ryan Martin is a Yale University-trained fertility specialist, where he also served as an instructor at the Yale University School of Medicine and earned numerous teaching awards. Dr. Martin joins Shady Grove Fertility in Bala Cynwyd, PA after building a successful fertility practice in New Haven, CT.

Dr. Kara Nguyen is one of only a few physicians to be triple-board certified in obstetrics and gynecology, reproductive endocrinology and infertility, and medical genetics. Dr. Nguyen has practiced in Pennsylvania for several years, and now sees patients at Shady Grove Fertility’s Reading, PA office.

Dr. Caleb Kallen earned his medical degree and doctorate in philosophy (Molecular and Cellular Biology) from the University of Pennsylvania. Most recently, Dr. Kallen served as the Director of the Division of Reproductive Endocrinology and Infertility at Thomas Jefferson University. He now sees patients at Shady Grove Fertility’s Chesterbrook, PA office.

Shady Grove Fertility has offices in Bala Cynwyd, Chesterbrook, Harrisburg, and Reading. To schedule an appointment, call 1-877-761-1967.

About Shady Grove Fertility
Shady Grove Fertility is a leading fertility and IVF center of excellence offering patients individualized care, innovative financial options, and pregnancy rates among the highest of all national centers. 2016 commemorated 25 years of Shady Grove Fertility providing medical and service excellence to patients from all 50 states and 35 countries around the world, and over 40,000 babies born—more than any other center in the nation. Today, 39 physicians, supported by a highly specialized team of more than 700 Ph.D. scientists, geneticists, and staff care for patients in 19 full-service offices and six satellite sites throughout Maryland, Pennsylvania, Virginia, and Washington, D.C. Shady Grove Fertility physicians actively train residents and
reproductive endocrinology fellows and invest in continuous clinical research and education to advance the field of reproductive medicine through numerous academic appointments and partnerships such as Georgetown Medical School, Walter Reed National Military Medical Center, the University of Maryland, and the National Institutes of Health. More than 1,700 physicians refer their patients to Shady Grove Fertility each year. For more information, call 1-888-761-1967 or visit ShadyGroveFertility.com.
