Research Progress on Treatment of Cancer with Compatibility of Traditional Chinese Medicine

A study by Dr. Song 3D Urology and Prostate Clinic on Treatment of Cancer with Compatibility of Traditional Chinese Medicine establishes that improving the treatment effect through drug compatibility to reduce side effects is an important way to enhance the rehabilitation confidence of patients and Dr. Song’s 3D Prostate Targeted Treatment follows this foundation.

Xiangtan, China (PRWEB) April 15, 2017 -- With the continuous development of the medical science, a lot of emphasis is being given to find out effective cancer treatments for patients. A recent study by Dr. Song 3D Urology and Prostate Clinic establishes that improving the treatment effect through drug compatibility to reduce side effects is an important way.

Dr. Song’s 3D Prostate Targeted Treatment uses injections of Anti-Cancer Chinese Medicine to cure prostate diseases. All medicine has been tested in terms of drug compatibility. Dr. Song gives targeted injections of herbal extracts in the affected area that help reduce the pain and inflammation of the prostate. After a regular therapy, it subsequently removes the cancerous tissues or lesions and also clears the blockage and calcification. The innovatively developed injection that is applied in the course of treatment helps achieve a significant inhibition intervention, as discovered by the research.

According to Dr. Xinping Song, the traditional Chinese medicine anti-cancer injection drugs have been continuously researched and this also paves the path for its better development. The research has shown a considerable therapeutic effect on the cancer patients and Dr. Song’s 3D treatment method has also been acknowledged for the success it has brought in curing prostate cancer.

Dr. Song 3D Urology and Prostate Clinic treats a number of prostate disease patients on a regular basis. The treatment can improve the recovery efficiency of the body function and the immune function of patients. The drug composition includes extracts of rhizoma curcumae, coix seeds and others that can stop the proliferation of cancer cells. The 3D prostate treatment, based on the traditional Chinese medicine, helps prevent the development of cancer affected cells in patients.
