METTLER TOLEDO to Exhibit at the 2017 IFT Annual Meeting & Food Expo® in Las Vegas

METTLER TOLEDO will showcase analytical instruments and balances used for in-depth quality control to assure food safety and quality at IFT's Food Expo®, June 26-28, 2017, in Las Vegas, NV.

Columbus, OH (PRWEB) May 31, 2017 -- The Institute of Food Technologists (IFT) Annual Meeting & Food Expo® will take place June 26-28 in Las Vegas, NV. This event attracts over 20,000 attendees representing food science professionals from over 90 countries across the globe. These professionals come together to share and be challenged by the latest research, innovative solutions, and groundbreaking thinking. As an exhibitor, METTLER TOLEDO will showcase highly sensitive and accurate analytical instruments and balances used for in-depth quality control to assure food safety and quality.

The food and beverages industry faces many challenges, like responding quickly to fast-changing consumer demands, increasing requirements for food safety and regulatory compliance, and improving productivity while increasing product quality. Stringent quality control for the exact adherence of product specifications is made viable thanks to METTLER TOLEDO's top-performing, innovative, and rugged balances, titrators, moisture analyzers, density and refractometers, pH meters, and sensors, as well as other instruments.

Make sure to stop by METTLER TOLEDO's booth #4164 for a hands-on demonstration of the following products and solutions from the following product lines:
• Analytical and Precision Balances
• Moisture Analyzers
• pH Meters & Sensors
• UV/VIS Spectrophotometers
• Density Meters & Refractometers
• Titrators
• Thermal Analysis
• Thermal Values

Registration and Information
IFT's Food Expo® will take place June 26-28, 2017 at the Sands Expo & Convention Center in Las Vegas, NV. Learn more about METTLER TOLEDO's attendance at this show.

About IFT
Envision what the very best minds involved in the science of food can achieve when they work together: providing each and every person on the planet with a safe, nutritious, and sustainable food supply. Since 1939, IFT has been advancing the science of food and its application across the global food system by creating a dynamic forum where individuals from more than 90 countries can collaborate, learn, and grow, transforming scientific knowledge into innovative solutions for the benefit of people around the world.

About METTLER TOLEDO
METTLER TOLEDO is a leading global manufacturer of precision instruments. The Company is the world’s largest manufacturer and marketer of weighing instruments for use in laboratory, industrial and food retailing applications. The Company also holds top-three market positions in several related analytical instruments markets and is a leading provider of automated chemistry systems used in drug and chemical compound
discovery and development. Additional information about METTLER TOLEDO can be found at www.mt.com/lab.
