WBENC grants UltraLevel WBE and WOSB certification as a Woman Owned Business Enterprise

UltraLevel announces it has received national certification from the Great Lakes Women’s Business Council, a regional certifying partner of the Women’s Business Enterprise National Council (WBENC), as a National Women’s Business Enterprise (WBE) and Woman Owned Small Business (WOSB).

SOUTHFIELD, Mich. (PRWEB) November 13, 2017 -- UltraLevel, an IT solutions provider and Dell EMC Platinum Partner, is proud to announce it has received national certification from the Great Lakes Women’s Business Council, a regional certifying partner of the Women’s Business Enterprise National Council (WBENC), as a National Women’s Business Enterprise (WBE) and Woman Owned Small Business (WOSB).

The WBENC certification for women owned business is the most recognizable and sought-after certification of its kind. WBENC’s national standard of certification implemented by the Great Lakes Women’s Business Council is a meticulous process including an in-depth review of the business and site inspection. The certification process is designed to confirm the business is at least 51% owned, operated and controlled by a woman or women.

“We are proud to be officially certified as a Women Owned Business Enterprise in accordance with the rigorous, multi-faceted business application and review process. By receiving the WBENC designation, we hope to serve as an inspiration to other organizations of the tremendous business value women offer,” said Trisha Butz, UltraLevel CEO. “UltraLevel’s WBE and WOSB certifications benefit our clients by helping them achieve their diversity initiatives and gives the marketplace an IT partner with a certification that is nationally recognized.”

By including women-owned businesses among their vendors, corporations and government agencies demonstrate their commitment to fostering diversity and the continued development of their supplier/vendor diversity programs.
