Winners of 2018 Mobile Breakthrough Awards Program Announced

Program Recognizes Top Mobile and Wireless Companies and Solutions Around the Globe

LOS ANGELES (PRWEB) October 24, 2018 -- Mobile Breakthrough, an independent organization that recognizes the top companies, technologies and products in the global wireless and mobile market, today announced the winners of the 2018 Mobile Breakthrough Awards program. The winning Mobile Breakthrough selections showcase wireless and mobile technologies and companies that push ingenuity and exemplify the best in mobile technology solutions across the globe.

The mission of the Mobile Breakthrough Awards is to honor excellence and recognize the innovation, hard work and success in a range of mobile and wireless technology categories, including Cloud Computing, Mobile Management, Wireless and Broadband, Mobile Analytics, IoT and Smart City and many more. The program attracted more than 2,000 award nominations from over 12 different countries throughout the world.

Winning products and companies were selected based on a variety of criteria, including most innovative and technologically advanced products and services, with the ultimate goal of recognizing the “Break Through” solutions for each mobile technology and company.

“2018 has been a tremendous year for the wireless and mobile industry, with exciting developments and real-world deployments for groundbreaking new wireless technologies such as 5G and advanced Internet-of-Things applications,” stated James Johnson, managing director, Mobile Breakthrough. “We are thrilled to recognize an impressive winners circle for our 2018 Mobile Breakthrough Awards program as these industry leaders usher in a new era of advanced mobile solutions around the world.”
