Dr. Clayton Moliver Partners with the Exclusive Haute Beauty Network

Dr. Clayton Moliver, board-certified Breast expert representing the Texas market, has joined the esteemed Haute Beauty network.

HOUSTON (PRWEB) March 05, 2019 -- Dr. Clayton Moliver, board-certified Breast expert representing the Texas market, has joined the esteemed Haute Beauty network.

The Haute Beauty Network, well known for their exclusivity, and luxurious lifestyle, is privileged to present Dr. Moliver as a leading Breast expert and our newest addition to the Haute Living partnership.

Haute Beauty offers a prominent collective of leading doctors nationwide. The invitation-only exclusive network maintains elite as ever, with only two doctors in every market. This partnership allows Haute Beauty to connect its affluent readers with industry-leading doctors.

About Dr. Moliver:

Dr. Moliver started his practice in 1992 and has years of experience. Although his early years were devoted to a mixture of reconstructive and aesthetic surgery, the last 10 years have been devoted exclusively to cosmetic surgery. Most of his patients come to him as referrals from other patients. More and more he is taking care of patients operated on elsewhere who now need cosmetic surgery revision. Dr. Moliver is Board Certified by the American Board of Surgery and the American Board of Plastic Surgery. He is also a Fellow, American College of Surgeons and has been practicing in the Bay Area since 1992. He is a member of the American Society of Plastic Surgeons (ASPS), the American Society for Aesthetic Plastic Surgery (ASAPS), the International Society of Aesthetic Plastic Surgeons (ISAPS), the Houston Society of Plastic Surgery and the Texas Society of Plastic Surgeons. Dr. Moliver is a Clinical Professor at the University of Texas Medical Branch, Department of Surgery, Division of Plastic Surgery.

Dr. Moliver received his medical school degree at Texas Tech University School of Medicine, in Lubbock, Texas. He completed his six years of general surgery residency at Texas Tech Regional Academic Health Science Center, El Paso, Texas from 1984-1990, serving as Chief Resident, 1989-90. He completed his plastic surgery residency at St. Joseph Hospital, Houston, Texas from 1990-1992. During that time, he trained with world-renowned plastic surgeons, including the inventor of the breast implant, Dr. Thomas Cronin, and the past Editor-in-Chief of Aesthetic Plastic Surgery (the official journal of the International Society of Aesthetic Plastic Surgery), Dr. Thomas M. Biggs. Dr. Moliver also found time to be a major in the U.S. Army Reserves Medical Corps from which he retired a few years ago.

Dr. Moliver has hospital privileges at Clear Lake Regional Medical Center. Thousands of women and men of all ages have entrusted their care to Dr. Moliver. They come to him for very personal reasons – a working mom, a business man or a retiree who wants a mini-lift or a full face lift to refresh and revitalize their appearance; an international patient or out of towner who wants the excitement of Houston City life, but prefers breast surgery in a private retreat; and a former Miss Texas and current professional models, actors and beauty contestants who have been referred to Dr. Moliver by others they trust.

Dr. Moliver is a caring and experienced plastic surgeon who takes the time to discuss your concerns and answer all your questions. He is committed to providing the highest quality of care in a calm and comfortable
environment.

Beyond practicing plastic surgery in the Bay Area, Dr. Moliver is a devoted family man, avid gardener and woodworker (you should see the cedar strip kayak he built). He is also a proud supporter of UT El Paso, Texas Tech, UT Austin and Texas A&M (all of which the Moliver household have attended or are currently attending). Dr. Moliver spends his spare time traveling with his wife of 30 years, weight training and running.
