The newest edition of “Guide to Wicked Sex” brings together jessica drake with senior sex expert Joan Price as they take viewers into the world of sexually-active aging and how couples and singles can keep the fire going and the body responding throughout the passage of time. This collaboration between the award-winning performer and activist and the noted expert on senior sex will offer insights and tips for better sex after age 50, 60, 70, and beyond.

“I’m so excited to begin work on this newest installment of our award-winning series and demonstrate that sex can get better with age,” drake said. “I’m grateful to share in this effort with the amazing Joan Price who brings her vast knowledge and experience on the topic of sex for seniors. We’re looking forward to changing some attitudes and debunking misconceptions with this exciting edition of ‘Guide to Wicked Sex.’ This may be my favorite guide in the series- and it hasn’t even been shot yet.”

Adding to the production values, drake is extremely proud to announce internationally acclaimed photographer and filmmaker Rae Threat has signed on to the project as the set photographer. Threat is known for featuring sex workers and adult performers in mainstream publications, they were one of the first photographers to hire adult entertainers to model a skate clothing brand. Their work intentionally advocates for the rights of sex workers, people of color and the LGBTQIA community. Threat champions inclusivity and challenges traditional “beauty norms” that plague media and the fashion industry, highlighting people of varying genders, races and body types in their art. During the production of “Senior Sex”, Threat will also be capturing portraits of the participants, not only to promote the movie, but as a momento for the contributors to forever celebrate their beauty and participation in this project.

“Guide to Wicked Sex: Senior Sex” will feature explicit demonstrations along with sex scenes illustrating sex tips and techniques to enhance the sexual experience featuring people sharing their talents in a unique setting that is both instructional and compelling. The new edition of the series takes viewers through a variety of topics, from how aging affects our bodies and responsiveness, relationship communication, expanding what “great sex” can be, overcoming the obstacles, and staying sexual while solo.

Price is the noted author of several books about senior sex, including “The Ultimate Guide to Sex After 50,” and is a self-described "advocate for ageless sexuality," who is recognized for her active approach and support to restore or recreate satisfying sex for boomers, seniors, and elders.
